- Helpful guidelines for making penalty doubles.
- How to handle interference when your side opens 1NT.
- The correct approach to make decisions at the four and five level.
- How to make the most of your opportunities to play “2 against 1.”

*** Once you've read Marty's "10 Commandments," your competitive bidding judgment will definitely improve.

#30 Defense with a Capital D

- Good defense is not easy to achieve. Step 1 is to learn the right way to think, which includes knowing how to figure out “active vs. passive.”
- The step-by-step interactive approach to these 20 deals is guaranteed to help your defense.

***Also includes useful tips to help you KNOW the right (and wrong) times to “cover an honor with an honor.”

#31 Improve Your 2/1 GF Bidding

- Do you play 2/1 GF + 1NT Forcing? Many players do. But that doesn't mean they can handle non-obvious hands. What they need are many carefully-explained examples of the correct thought process and techniques for both opener and responder. Here they are!

***Also includes tips for surviving interference with your 2/1 GF auctions, and the best way to interfere with theirs.

#32 Opener's Best Rebids

- The key is good judgment and accurate hand evaluation. Regardless of your level, once you understand the best way to size up your hand, you will make better rebids.

***Also includes helpful material to improve your understanding of reverses.
